EXPERIENCE

Team Lead| Atomic Infotech | Issaquah, WA | 2017-Current

- Responsible for leading team to develop and maintain an eSports website with a CMS integration and integrations with Xbox and Gfinity eSports adjudication platform
- Built custom graphics tool for use during eSports live stream to display racing, leaderboard and polling results with minimal input from the graphics operator
- Built integrations with Twitch, Mixer and Maestro to engage audience during live streams with interactive voting and chat interactions

Software Developer| Atomic Infotech | Issaquah, WA | 2015-2017

- Created a guest streaming station using Node and Electron to allow influencers and Twitch personalities to quickly and easily sign into and configure the station so that a user could start streaming almost instantly during Gamescom and Twitchcon
- Built integrations with POS and HRIS software to provide reporting tools for retail clients
- Worked on social intranet for clients to allow home offices to easily disseminate news and product data to retail stores

Teaching Assistant | Code Fellows | Seattle, WA | 2015

- TA for JavaScript Foundations II
- Primary point of contact for students during lab time for help and Q&A
- Evaluate student assignments

Senior Specialist | TalentWise | Bothell, WA | 2012-2014

- Assisted all levels of client accounts with questions and additional sales opportunities
- Managed and distributed team workload to ensure all team duties were completed on a daily basis
- Trained new team members

Office Assistant | Paul B. Brown M.D., Ph.D. | Seattle, WA | 2011-2012

- Responsible for communicating and documenting patient needs with the doctor and other office staff
